

## Air Liquide at 2018 Gastech exhibition and conference

**Air Liquide will participate in the global Gastech exhibition and conference being held in Barcelona, Spain, from Monday September 17th to Thursday September 20th, 2018. Air Liquide will showcase the innovative technologies and solutions and know-how available to customers worldwide.**

Gastech, held in Fira Barcelona, Gran via, is considered one of the most prominent meeting places for upstream, midstream and downstream gas and LNG professionals to convene and do business. A pioneer in LNG for more than 60 years, Air Liquide continues to provide customers with advanced and efficient solutions in a context of growing demand, cost competition between energy sources or emission targets.

**Located at Stand N100, Air Liquide Engineering & Construction will showcase its unique LNG technologies** such as Liquefin™, Smartfin™ and Turbofin™, solutions for liquefaction plants of any size. Other technologies will also be on show such as the suite of natural gas treatment technologies (CO<sub>2</sub>, Nitrogen, Sulfur removal, Natural Gas Liquids recovery and Helium) for the valorization of natural gas. The stand will feature a Brazed Aluminium Plate Fin Heat Exchanger manufactured by Air Liquide, a virtual reality tour of its Liquefin technology, and more.

**As part of the conference program, key technology presentations will be delivered by Air Liquide representatives** on topics: making stranded gas valorization possible with membranes technology (September 17th, 16:45-17:15, Agenda T2.2); boil off gas reliquefaction on Cardissa bunker vessel using innovative sub-cooler (September 18th, 17:00-17:30, Agenda T3.6); and modular construction for multi train plant - Liquefin technology (September 19th, 17:00-17:30, Agenda T3.10).

**Domenico D'Elia**, Senior Vice President, Sales & Technology, Air Liquide Engineering & Construction commented: ***"Participation at Gastech is a unique opportunity to meet with our international customers and showcase how we can contribute to the current challenges they are facing with innovative technologies and solutions."***

### **Air Liquide Engineering & Construction**

Air Liquide Engineering & Construction builds Air Liquide Group production units (mainly air gas separation and hydrogen production units) and provides external customers with efficient, sustainable, customized technology and process solutions. Air Liquide Engineering & Construction's core expertise in industrial gases, energy conversion and gas purification, enables customers to optimize natural resources.

Air Liquide Engineering & Construction covers the entire project life-cycle: license engineering services / proprietary equipment, high-end engineering & design capabilities, project management & execution services. As a technology partner, customers benefit from our research and development to contribute to energy transition. In 2017, revenues were €335 million.

The world leader in gases, technologies and services for Industry and Health, Air Liquide is present in 80 countries with approximately 65,000 employees and serves more than 3.5 million customers and patients. Oxygen, nitrogen and hydrogen are essential small molecules for life, matter and energy. They embody Air Liquide's scientific territory and have been at the core of the company's activities since its creation in 1902.

Air Liquide's ambition is to lead its industry, deliver long term performance and contribute to sustainability. The company's customer-centric transformation strategy aims at profitable growth over the long term. It relies on operational excellence, selective investments, open innovation and a network organization implemented by the Group worldwide. Through the commitment and inventiveness of its people, Air Liquide leverages energy and environment transition, changes in healthcare and digitization, and delivers greater value to all its stakeholders.

Air Liquide's revenue amounted to 20.3 billion euros in 2017 and its solutions that protect life and the environment represented more than 40% of sales. Air Liquide is listed on the Euronext Paris stock exchange (compartment A) and belongs to the CAC 40, EURO STOXX 50 and FTSE4Good indexes.
